THE TEAM BEHIND THE TEAM

The past year has been a very exciting one for all of us here at Somerset Medical Center.

Of particular note, we received Magnet Recognition from the American Nurses Credentialing Center. Magnet designation is the nation's most prestigious nursing honor and is internationally recognized as the gold standard in nursing excellence. This distinction is achieved by less than seven percent of hospitals nationwide.

We became one of the first community hospitals in New Jersey to offer robotic surgery and the first in the state to perform TransOral Robotic Surgery for disorders of the head, neck, throat and mouth.

We launched our new Joint Surgery Institute for hip and knee replacement surgery, featuring pre-operative education classes, group therapy and a joint care coordinator. In conjunction with that, we are proud to report that for the third year in a row HealthGrades has recognized us as one of the top hospitals in the nation for orthopedic care. We have received the HealthGrades 2011 Orthopedic Excellence Award™, ranking in the top 10 percent of hospitals nationwide for overall orthopedic care.

Our Sanofi-aventis U.S. Breast Care Program also earned national recognition. In 2010, the breast center achieved full accreditation by the National Accreditation Program for Breast Centers – one of only nine programs in New Jersey to earn this distinction.

We received the American Heart Association/American Stroke Association's Get With The Guidelines® Stroke Silver Plus Performance Achievement Award recognizing our success in implementing a higher standard of care for stroke patients.

The Joint Commission, the national organization that accredits health care facilities, conducted an on-site visit at the medical center. The Joint Commission surveyors left here very impressed with what they saw and identified a number of areas where they felt we had "best practices" which should be emulated at hospitals throughout the country.

In a separate survey, our Cardiology Department received the Joint Commission's Gold Seal of Approval for heart attack care.

Our Sports Performance and Rehabilitation Center continues to build on our expertise as long-time health care provider for the Somerset Patriots baseball team. Last year, we became the official health care provider for the Sky Blue women's professional soccer team and we began a new partnership with Rutgers University, working with them to provide regional sports clinics.

These accomplishments, and many more, are a testament to our 2,200 employees, 650 physicians, and more than 550 volunteers who are dedicated to providing you and your families with the best medical care close to home.

Many of the achievements of our medical team, however, would not have been possible without you and the thousands of other benefactors who form Somerset Medical Center's "Team Behind The Team." Through all of the ups and downs of the economic situation over the past few years, our community support has been unwavering.

Last year, nearly 3,500 individuals, corporations, private foundations, community groups and organizations helped Somerset Medical Center Foundation raise more than \$3 million. This critical funding makes it possible for the medical center to meet its current demands for physical growth and modernization, community health/education programs and the recruitment of superior clinical professionals.

On behalf of the entire Board of Trustees, please accept our sincere gratitude for being a part of the team behind our great medical team. Together, we bring healing and hope to our community.

MEDICAL CENTER FOUNDATION

110 Rehill Avenue
Somerville, NJ 08876

Somerset Medical Center Foundation is a non-profit organization created to solicit and administer charitable funding on behalf of Somerset Medical Center. Dedicated to the enhancement of the health status of residents in the greater central New Jersey area, the Foundation is committed to ensuring that all have access to state-of-the-art technology and facilities, expert medical personnel, and a full array of educational and support services. Since its beginning, Somerset Medical Center Foundation has remained steadfast in its mission of helping establish Somerset Medical Center as the finest hospital in New Jersey.
